

Research at the University of North Carolina at Chapel Hill

Summer Pre-Graduate Research Experience (SPGRE) Program

Program Components:

- 10-week research intense program designed for students interested in: physical & computational sciences, life & biomedical sciences, social & behavioral sciences, humanities, and environmental sciences
- Some students in the social sciences & humanities may participate in the Moore Undergraduate Research Apprentice Program (MURAP) component:
www.unc.edu/depts/murap
- Participants work with UNC-CH faculty, postdoctoral fellows, or graduate students
- Opportunity to participate in social activities, special seminars related to research and graduate programs, a GRE preparatory workshop
- Housing provided & travel reimbursed up to \$500.
- Students receive a stipend of \$3,200 and a food allowance of \$1,450

Eligibility:

- Students **should show sincere interest in pursuing the Ph.D. degree**
- Historically underrepresented students (African American, American Indian, Mexican American, and Puerto Rican populations) are particularly targeted
- Preferences given to students who have completed their junior year
- Those **not eligible**: Freshmen, students who have graduated before or during the program, and students not US citizens or permanent residents

To Apply:
